“Tiger Lady”

A Defense Device for Women

Be able to defend yourself if attacked

Retractable claws collect DNA from assailant

It is legal in all states

The “TigerLady” is a defense device that you carry to protect yourself. Be ready to lash out with “tiger claws” to scare off your attacker. It is secured with a lanyard around your wrist and concealed in the palm of your hand. It looks like a small phone and weighs less than two ounces. The element of surprise is what makes it work!! The retractable claws have grooves that collect DNA that can be used to identify your attacker.

As part of our advocacy and service project, our club is selling the Tiger Lady at a reduced price of \$26.00 each or \$24.00 for three or more. A small price to feel safe. They make great gifts and stocking stuffers. Remember those away at college, moms, daughters, sisters, granddaughters, grandmothers. Every woman needs to feel safer when jogging, walking across campus or going to and from their car. Proceeds will be used to continue our advocacy events. You can contact me by phone 734 464-3728 or by email at rsrand521@sbcglobal.net for more information. Thank you
